HAROLD LLOYD IN

## For Heaven's Sake

Harold, "the young millionaire" realizes that happiness cannot be found among those of his own station.

He meets the riff-raff of "Slattery Square" in his visit to the underworld mission.

He falls in love with Jobyna amid ash cans and rubbish heaps.

His highbrow friends kidnap him on the eve of his wedding. And that's not all—You know Harold.

EXTRA GOOD 2-REEL COMEDY

COMING NEXT WEEK

"The Flaming Frontier."

## P. T. A. Executive Holds Session

An executive meeting of the P.T.A. was held Saturday March 12th in the public school building. In reference to the resolutions which were presented to the board by the president and secretary re the holding of the vans for a 15 minute period where teachers felt advisable, and the matter of having some supervision during the lunch hour, were reported on as follows: In the first case the board felt this meant the unnecessary punishing of several children for the one, then, too, van drivers are not to slack. The board suggested as an alternative that if a teacher wishes to punish a child in such a manner that the parent be consulted and have child remain and parent provide a way home. The P.T.A. decided that with the co-operation of the parent this would be very satisfactory. Other matters of business were discussed. The next meeting will take the form of a lecture, speaker Dr. Kerby, in Campbell's Hall March 21st, at 8 o'clock.

## High School Lit. To Present Play

Preparations for the presentation of the classic, "The Stoops to Conquer" by the school literary society are nearing completion in the hands of the teachers, with Mr. Forrest Cool as critic. The date selected for the presentation is Friday, April 8th, and already great interest is being shown by the public.

On April 1st the Alston Dramatic Club will present "The Arizona Cowboy" in the Community hall. The play is a comedy-drama, and its name indicates its character. Assurance is given that this will exceed any prior attempt on the part of the club to entertain. A dance will follow the show.

Mrs. McCordell, of Carstairs, was the guest of her sister, Mrs. H. Hammel for some time recently. Mr. and Mrs. Hammel accompanied her on her return to Carstairs at the week end. While here Mrs. McCordell was the author of drawings which were much admired.

A very pleasant evening was spent in Campbell's hall on Friday evening when a number of friends surprised Lura Nelson, on the occasion of his birthday. The evening was spent in dancing and music, dainty refreshments being especially enjoyed.

F. J. Clapp is confined to his residence with an attack of scarlet fever, evidently contracted on a recent visit to Calgary. He is doing nicely in quarantine, the only feature of the situation which promises to be embarrassing.

"Gib" Moir, of Barons, was a visitor here Wednesday, and while in town purchased one of Barney Hummel's setter pups. Barney is of the opinion that Gib knows a good thing when he sees it.

Mr. and Mrs. W. W. Sloan are now located in Queenstown where Mr. Sloan has entered the implement business. Every one in this district will wish them success in their new venture.

C. Schroeder is visiting Washington and Oregon points with the intention of securing a location to which to move his family.

## Musical Afternoon Largely Attended

The W.I. met at the home of Mrs. Ryan Thursday, March 5, with an attendance of 30. The main feature of the afternoon was a musical program put on by local talent and was a decided success. The committee in charge wish to thank those who so kindly took part in programme and helped to make it a pleasant and enjoyable one. The next meeting will be held at the home of Mrs. W. C. Hoskins, Mrs. D. Harper as hostess assisted by Mrs. Chamberlain and Mrs. Bond.

The musical program was thoroughly enjoyed, those taking part being Mrs. Ryan, Mrs. Williamson, Misses Ferguson, Smith and McGillivray and Messrs. Rev. Hunt, Mr. Geo. Campbell, and Mr. A. F. Hunt. All members and their husbands are invited to a social evening at Kirkcaldy on the 18th, when they will be entertained by the Kirkcaldy Women's Institute.

## Dr. Kerby Here Monday Evening

Champion is due for a treat in the address of Rev. Dr. Kerby, of Mount Royal College Calgary, on "Some Problems of Modern Education," in Campbell's hall on Monday evening, March 21. There will be a musical programme in addition to the address and an admission fee of 25c will be charged to defray expenses. The address is in the interests of parents, teachers and young people, and will undoubtedly prove sufficiently interesting to all concerned to fill the hall to capacity. The meeting opens at 8 o'clock.

## ALSTON NEWS

A mischievous little cowgirl, a crazy old woman, a sunny chinaman always in trouble and Hozekia Bugg the biggest liar in the state of Arizona will keep you in continual good humor. See the "Arizona Cowboy" at Alston, April 1st. Keep this date open for Alston.

F. J. Beingsen's auction sale has been postponed until Monday, March 21st, owing to rough weather on the original date. This will be the biggest offering of first class stock, etc., that will occur this season.

Miss Ina May Hummon, who is to put on a recital at Champion in the near future, has been very ill at her home in Carmangay, but expects to be around soon.

Bob McPherson, late of the Ford Co. but now representing Willy Knight was in town on Wednesday. A. W. Jopling will handle the line at Champion.

The Champion branch of the Women's Institute wish to express their sincere thanks to the committee of "Cherry Blossom," for the sum of \$25.00.

Mrs. D. A. Perry, of Strathmore, visited her sister, Mrs. W. A. McIntyre, for a few days last week, returning home on Thursday.

Rev. Hunt was out of town for a few days attending a Presbytery meeting at Blackie and a series of lectures in Calgary.

Mrs. Dr. Talbot's friends will regret to hear she is seriously ill at her home in Calgary.

Mr. and Mrs. George Dupas are visiting in Calgary for a few days.

THURSDAY, MAR. 17, 1927

The Wheat Pool is strongly advocating that members sow only good, clean seed in order that the high quality of Canadian grain may be maintained. Wheat grown on the Canadian prairies has the reputation of being the best wheat in the world. The Pool is obtaining substantial premiums for its members' wheat over the prevailing price for wheat grown in other lands. This high standard should be maintained.

Of late there has been a tendency for Canadian wheat to be a mixture of many varieties, some of which are very much inferior to Marquis. This is a dangerous drift and should be discouraged. The Pool is concerned in maintaining the high milling and baking quality which has made Canadian wheat very popular in importing countries.

The use of good seed means higher yields, better grades through maturing evenly and freedom from weeds and inter-mixtures of other grain. Good seed germinates vigorously and uniformly and gives a higher percentage of seedlings capable of resisting unfavorable climatic and soil conditions. George McIver, western sales manager for the Wheat Pool says: "From the standpoint of the wheat salesman I would desire nothing better than that all our wheat in the province of Alberta be of the highest grade. It is my opinion that the European miller will always desire to purchase reasonable quantities of high-grade Canadian wheat. He must purchase this wheat to give the necessary strength to his flour. There is no question but that the world at large appreciates the quality of our high-grade wheat. In my opinion anything that the growers of this province might do in the way of purchasing pure seed will be a decided aid to the Pool in the sale of its wheat to the world's market."

## J. T. Miller Dead at Stavely

(Lethbridge Herald)  
The remains of the late J. T. (Thode) Miller were laid to rest in the Stavely cemetery Saturday afternoon in the presence of a large number of friends and relatives. Coming here from Illinois in 1905 the deceased was a well-known figure in town for the past twenty years, and his death at the age of 77 years marks the passing of another of Stavely's old-timers. He leaves a widow and two daughters, Mrs. James

Extra Quality  
easily recognized  
explains Hupmobile Six Success

No need for any salesman to point out contrasts between the new Hupmobile Six and other sixes in its price-class.

You see them yourself at first glance—in the car's new beauty of line and finish; in clear vision bodies in interiors upholstered in genuine mohair; in conveniences and in the many detailed refinements.

For Hupmobile puts 10% extra quality into this car without

adding the cost to the purchase price—10% finer materials and workmanship to insure the very utmost in six-cylinder brilliance and dependability of performance.

Make comparisons and you are bound to select the Hupmobile Six. In common with thousands of others, you will recognize it not only as the closest-priced Six in Canada—but far and away the finest-quality Six under \$2000.

ROBERT TYLER

—it SAVES the FARMER'S THRESH BILL

Threshermen  
All in the 1927  
Red River Special Line

The Red River Special Line is built to save your grain and to last.

An adjustable N & S Hart Special Feeder, under control of the straw and speed governors, feeds the grain just right under all conditions to the Big Cylinder.

The famous 4 Threshermen, the Big Cylinder, the Man Behind the Gun, the Beating Shakers and the Steel Winged Beater, will get the grain from the straw, even when the straw is rank and tough.

Hyatt Roller Bearings at every main bearing point, cut down the power needed to thresh, reducing the fuel bill. Alemite-Zerk Lubrication saves many minutes otherwise lost for oiling up. Nichols & Shepard first gave these improvements to the threshing world.

Armco Ingot Iron, used for the first time in a threshing in the Red River Special Line, will protect your investment from rust. It makes the long lasting Red River Special Line still more long lasting.

NICHOLS & SHEPARD  
In continuous business since 1856

## TAKE STRONGER MEASURES TO STOP SMUGGLING

Ottawa.—Extensive changes in the preventive service against smuggling, including the increase of the personnel from 92 to 229 on land and the addition of four motor boats are recommended in the report of the advisory and consultative committee on the excise preventive service reorganization, tabled in the House of Commons by Hon. W. A. Roper, minister of customs and excise.

"The preventive service should be strengthened greatly if anything like reasonably satisfactory control of smuggling into this country is to be expected," stated the committee. The report shows that the 15 boats, with crews of 121 at present, have the services have been working from 1921 to 1925 at a cost of \$1,000,000. The committee is "deeply concerned" in respect to the 15 boats, which are owned by liquor smugglers who make high profits.

It is proposed that two vessels and two fast launches should be provided as the minimum equipment as soon as possible. The report says that 125 feet with a minimum speed of 16 knots, wireless, forward search lights, auxiliary motor boats, and three pound or larger guns. The crew should total 185 officers and men, an increase of 21, and the capital outlay is estimated at \$200,000, and the operating expense at \$75,000.

The land force of the preventive service should have eight district officers, 229 preventive officers instead of the present 92, and 26 non-rate officers. The committee also recommends that the headquarters, together with the headquarters in Ottawa should cost \$65,000.

"We must strongly recommend that the selection be made by the Civil Service Commission and the chief of the preventive service," states the committee.

The estimated capital and operating expenditures of the preventive service as it is proposed would total \$1,112,725 and in the event of size aircraft being put into service for \$1,112,725. In accordance with the offer of the Royal Canadian Air Force, an additional \$500,000 should be added.

## Suggests Tablets To Commemorate Jubilee

World Carry Message of Confederation Through Canada Says Ontario M.P.

Ottawa.—The message of confederation could be brought home to every citizen in the Dominion best by the placing of a bronze tablet in every village or community of greater extent in the history of the Dominion. Mr. T. E. Raker, Conservative member for the riding of Ontario, believes it is better to have a tablet suggesting along with the committee in charge of the Jubilee celebration. He has already written on a plaque which will be presented to the committee.

A bronze tablet could be made from the plaque. On it there would be Queen Victoria, Sir John A. Macdonald, Sir Wilfrid Laurier and every prime minister of Canada.

In the entire world appear the possibility of the face of the statue number of the child in 1927. The tablet would be appropriately worded and be hung in every county corner or municipal chamber in one of the 215 ridings in the Dominion.

## Declared Public Holidays

Ottawa.—Although the details of Canada's jubilee celebration are yet to be worked out by the National Committee, it is expected that for the most part they will be held on July 1, July 2, and the Saturday and Sunday following. The bill which incorporated the committee has received royal assent. It provides that July 1 and 2 shall be public holidays.

## Failed to Break Record

Bellefleur, Ills.—Brazing season ended at an altitude of 27,000 feet. Capt. Hawthorne Gray, engineering officer at Scott Field, failed in an attempt to break the five balloons. The flight record of 35,423 feet. He landed 55 miles southeast of the field three hours after he took off.

## Navigation May Open Early

Millwaukee, Wis.—Prediction of an early opening of commerce on the Great Lakes is based on the first grain transport report for 1927 from the Great Lakes, showing that ice in many of the harbors either had disappeared or was so much thinner than at this time last year.

W. N. U. 1617

## Interim Pool Payment

\$27,000,000 Being Distributed to Farmers in Three Prairie Provinces

Regina, Sask.—The Canadian Co-operative Wheat Producers, Limited, central selling agency for the three prairie wheat pools, announced today that the first interim payment for the 1926-27 crop is being made from the profits of the Manitoba, Saskatchewan and Alberta pools. The amount of the payment is officially stated to be 15c per bushel for spring wheat and spring wheat softwheat, 25c per bushel for durum wheat and durum wheat softwheat, 35c per bushel on all grades of barley, 15c per bushel on all grades of flax. A total of \$27,000,000 is distributed to prairie farmers in the three provinces, according to Mr. McPhail.

Saskatchewan's share of the \$27,000,000 being distributed as a result of the first interim payment on the 1926-27 crop amounts to be between \$1,500,000 and \$1,800,000, according to an official statement issued by the Saskatchewan Co-operative Wheat Producers, Limited.

Officials of the pool call attention to the fact that the interim payment, scattered widespread over Saskatchewan just prior to seeding, represents one of the tangible benefits of the pool. It is not only recognized and greatly appreciated by pool members, but it is recognized by bankers and station agents.

## Would Amend British North America Act

J. S. Woodsworth Suggests Committee Be Appointed to Change Constitution

Ottawa.—A special committee "to consider what amendments might be made to the British North America Act which, while concerning the rights of Confederation would enable us more adequately to cope with the complicated problems which now confront the Dominion," was proposed in the House of Commons by J. S. Woodsworth, Labor, Winnipeg North Centre.

Mr. Woodsworth gave as reasons for his proposal:

"A constitutional development of the last 50 years.

"The disintegration of certain provinces.

"The changed conditions in the Dominion, commerce and finance not contemplated at the time of Confederation.

"The action of the Senate in preventing the enactment of popular legislation.

In proposing his resolution Mr. Woodsworth declared Canada had no way of changing its own constitution, and in this regard it was inferior to the United States, Australia and the Netherlands. He pointed out that widespread feeling in the West that there would be an inevitable break of confederation with the provinces, and with the other parts of Canada on some other basis.

## Engine Trouble Ends Trans-Atlantic Flight

Oil Pipe in Motor Blocked Says

Message From Uruguay Says Flight Madrid—Paralyzing of an oil pipe in the motor of his plane brought the trans-Atlantic expedition of Major Tadeo Lario-Borges, Uruguayan, short to an abrupt end while he was flying from Cuba, Mexico, to Cape Cod. He made this known in a brief message received by the Uruguayan minister through the Irish consulate at Cape Cod. The message said the failure of the engine to function made it necessary to stop and that the plane was destroyed when it crashed.

Major Tadeo Lario-Borges is a hero of Moroccan, Turkish men who captured him and his three flying companions after the capture of the plane. He is believed to be held for ransom.

## Waiting Outcome of Conference

London.—Great Britain does not intend to lay down any naval vessels over the 1927 program of new construction until late in the year or until the outcome of the disarmament conference is known. William Glave Bridge, minister of the admiralty, told the House of Commons, War on vessels already under construction will not be altered, he said.

## Aims Parity This Fall

Geneva.—The League of Nations council adopted a resolution today that the League should aim at parity of exchange for private money, but that it should be held in the

## Urges New Treaty Practice

British Foreign Secretary Asks Negotiation Between Heads of Governments

Geneva.—An echo of the last Imperial conference was sounded in the League of Nations council when Sir Austen Chamberlain, British foreign secretary, asked the League to establish the practice of negotiating treaties between states and embarking on it by treaty between heads of states.

He explained that his statement was made at the request of the British and Dominions governments. It did not mean that the Dominions would lose their prerogative of approval in or rejecting treaties but that negotiators of treaties by Great Britain and the Dominions would be facilitated.

The statement, made by Sir Austen Chamberlain in the council of the League of Nations as it was the first time that it was proposed to negotiate treaties by the British Empire in League documents, is in line with the decision arrived at during the Imperial conference. The Canadian government also received detailed information as to Mr. Chamberlain's statement.

## CHINA RESENTS INTERFERENCE OF RUSSIAN SOVIETS

Shanghai.—The drive of the Canton for the city of Soochow and the attendant threat on Shanghai are overclouding anxiety here by the possibility of strained relations between the Peking Government and Moscow, growing out of the arrest of Vladimir Bonch-Bruyevich, vice of the Chinese government, under the influence of the Russian Soviet.

Chinese authorities declare there have been increasing indications that large numbers of Communist emigrants have been sent ashoreward in an endeavor to stir up trouble among the workers. Every precaution already has been taken to prevent an influx of these agitators into Shanghai, Peking and other northern industrial centers.

It is charged here that the Soviet Union, under Lenin, and the Chinese, under Sun Yat-sen, were seized by a squad of white Russians attached to the army of Chang Tsoung-chang, but that some of the white Russians were shot and a few points of view.

While the military situation between the Chinese and the northern forces is developing steadily, the spreading of propaganda in rousing the northern commanders since it is interfering with their transportation of troops.

## Went Higher Wages

Winnipeg.—Employees of the Canadian National Express Company, amounting to 2,500 men, have just received notice of a demand for higher wages on officials of the company. The exact amount of the increase has not been stated, although it is thought to be an average of approximately 20 per cent.

## Navigation to Go Early

Ottawa.—Canada's giant peacemaker Mikula has reached the Gulf of St. Lawrence, and conditions there are favorable to an early opening of navigation. The Department of Marine and Fisheries has been informed by a wireless from the ship.

First of 3,000 Families for Canada in 1927

Mr. J. Malcolm, Canadian Government Agent, Glasgow, (left), taking leave of the first family to emigrate under the 1927 Family Settlement Scheme. The family comprises Mr. and Mrs. Alex. I. Thomson, and their children from New River, Aberdeenshire, who proceeded to Canada, on board the Canadian Pacific liner "Mountain", in late July. The family is the first to be charged of 216, whereas, the full fare for the family is \$112.

## CHIEF FEATURES OF ONTARIO'S NEW LIQUOR LAW

Toronto.—The following are the chief features of Ontario's new Liquor Control Act introduced in the Legislature by Premier Ferguson.

All liquor must be purchased through the government agency.

Permits are of five classes, as follows:

Individual permit to a resident of Ontario for recreational purposes not exceeding one month to a tourist or temporary resident.

Special permit to physicians, dentists, veterinarians and those in scientific or mechanical pursuits.

A special permit for ministers of religion for recreational purposes.

The board has further authority to issue a special permit as authorized by the Liquor Control Act to the holder of the special permit issued in the permit.

Druggists are not permitted to dispense liquor and food.

Beverages and distilleries can only sell in the province to the board under a permit from the board.

No liquor may be consumed in public place. All liquor must be consumed in the residence or temporary home of the consumer.

The commission will establish stores for the sale of any or all classes of liquor at such places as they may deem best in the interest but no store may be established in any municipality where the Ontario Temperance Act is in force.

Where a by-law under local option has prohibited the sale of liquor at the time of the coming into force of the Ontario Temperance Act in 1916.

Light beer, as defined by the act, and which is ordinarily known as light beer, may be sold in such places as the board designates, under permit from the board.

There shall be no public advertising of liquor.

No person, except with the permission of the board, shall have in his possession in this province any liquor not purchased from the board.

This section takes care of the private stock that any citizen may already have that is legally purchased and the board has absolute control over all the liquor that is found in Ontario.

The board may appoint a staff of inspectors, and like staff, in cooperation with the provincial police and local constables, shall cooperate in the enforcement of the law.

All prosecutions will be conducted under the Department of the Attorney General, and no lawyer shall have any person found selling liquor in Ontario will be imprisoned for the first offence without the option of a fine not exceeding \$100, or for a second offence for any offence under the act.

Make First Speech

Quebec.—Bernard Pilot, Liberal M.P., Mr. Vandell, has made his first speech in the Legislature in the twenty-second year he has represented Vandell in the House. He is now a member of the Liberal party, and is a native of the province.

## Permitted to Fly Over Canada

Ottawa.—The Dominion air board has granted permission to the Ford Motor company to fly planes over Canadian territory in connection with the company's proposed daily plane freight service between Detroit and Buffalo, N.Y.

First of 3,000 Families for Canada in 1927

Mr. J. Malcolm, Canadian Government Agent, Glasgow, (left), taking leave of the first family to emigrate under the 1927 Family Settlement Scheme. The family comprises Mr. and Mrs. Alex. I. Thomson, and their children from New River, Aberdeenshire, who proceeded to Canada, on board the Canadian Pacific liner "Mountain", in late July. The family is the first to be charged of 216, whereas, the full fare for the family is \$112.

## Think Britain Favors War Craft Limitations

Officials at Washington Believe in Ultimate Success of Plan

Washington.—London and Tokyo news agencies clearly indicating that Great Britain and Japan will accept the proposal for a conference with the United States of America this summer on auxiliary war craft limitations are taken by officials here to mean that such a project ultimately will be brought about.

While there has been much doubt as to the Japanese attitude toward such an arrangement, British sentiment in the past generally has been against any limitation of auxiliary war craft as long as her own fleet is maintained in its present strength and she is not prepared to limit submarine construction and officials have looked to find British in view of the greatest obstacle in the way of a three-power policy.

Public opinion throughout Great Britain is interpreted by that country's officials as being in favor of the plan for naval limitation.

General sentiment carried the official information that Great Britain would insist on linking the three-power policy with France and Italy and opposing certain limitations in cruisers, submarines and torpedo boats.

## London Worker Has Terrifying Experience

Was Swept Into Sewer by Rush of Water and Carried Many Blocks

London.—A workman engaged in a sewer work in Chancery Lane had a terrifying experience when a sudden rush of water swept him into the sewer. He was carried for a distance of about 100 yards before he was able to get out. He was badly injured and had to be taken to the hospital.

He was rescued after several other men and finally got out of the sewer. The river Thames, beneath Chancery Lane, where he was rescued by river police. Beyond seven or eight feet he could not reach him.

## LOSS OF LIFE BY EARTHQUAKE IN CENTRAL JAPAN

Tokyo.—Thousands of refugees in Central Japan, starving, hungry and in need of medical aid, struggling to bring order out of the chaos created by the earthquake, which already has caused the loss of a total of more than 2,000 lives.

The Home Office stated that its latest figures showed 2,275 persons killed and 1,100 injured. The number reported by Tokyo news agencies, however, indicated the total dead in the entire earthquake region would number more than 2,000, with one newspaper estimated the total would number 5,000, with 2,000 to 2,500 homeless.

The correspondence for the Tokyo Asahi Shimbun, which reported from the stricken area, traveled from Miyazaki that the cities in Miyazaki, where some 1,000 persons were killed, and Amio, were heart rending. Refugees, he said, were exposed to snow and rain while only a small amount of relief was available.

Many relatives of victims of the quake were digging in the ruins of devastated villages seeking the bodies of their loved ones. Mothers and daughters, placed graves were built and bodies cremated. Other families were seen to be buried under the ruins of their homes.

Shallow graves were dug in the open ground, even graves of children assisting in the burial rites. Bits of half-burnt sticks, raised from the debris, were used as incense sticks for the offering of prayers.

## SAYS RAILWAY RATES IN WEST ARE REASONABLE

Ottawa.—That the great development in the prairie provinces was in itself strong and abundant proof that the railway rates were fair and reasonable for the service rendered, was the argument advanced by Frank J. Watson, freight traffic specialist, in the general freight investigation before the Board of Railway Commissioners.

Mr. Watson took up the rate schedule as it affects livestock, and declared the railways have a deep interest in the development of the livestock industry, particularly in the West, but the rates today are lower, he claimed, than might be considered.

He pointed out that the existing conditions, and they could not in any fairness be reduced further at the present time.

Mr. Watson then discussed the general application of the Canadian freight classification to the entire Dominion, whereas it had been done in the United States. He stated that in 1924 the C.N.R. voluntarily made a substantial reduction.

In Mr. Watson's opinion it was reasonable to believe that the situation could be remedied in much greater degree than it has been without any undue sacrifice of the railway companies. He stated that the railway companies had been very successful in their efforts to reduce the rates, and that the situation was now in a position to be improved.

## Will Remain Neutral

British Not Involved in Capture of Soviet Agents by Chinese

London.—The British Government has been asked to intervene on behalf of Miss Bowdoin, arrested by Northern Chinese forces near Shanghai. The British Government has declined to do so, stating that it is not involved in the incident, and that it is not a matter of British concern.

## Local and General

Born—On Thursday, March 10th, to Mr. and Mrs. A. Kramer, a son.

Mrs. Little, of Stavelly, is visiting with her daughter, Mrs. B. Hummel.

For Sale—A quantity of chicken wire. Apply to Herbert Gill at Municipal office.

Lost—Between Champion and Blinson school a license plate No. 43-755. Finder please leave at Chronicle office.

Mrs. W. Ulrich left recently for Dakota, where she will visit with her mother for some time.

The W.I. Meeting held at the home of Mrs. Ryan was certainly a banner meeting 41 being present. Mrs. Ryan gave an excellent report of the District Conference held in Medicine Hat.

## UNITED CHURCH OF CANADA

Sunday, Mar. 20  
11 a.m.—Sunday School.  
8 p.m.—Service at Blinson School.  
7:30 p.m.—Evening Worship.  
Subject—"Jesus Use of Humor."

**P. M. PATTERSON**  
Elected Reeve of the Municipality of Harmony for the 9th successive year on Monday last.

**LOST**  
One boy gelding, black in face, shed in front, white stocking on hind leg. Reward of \$10.00 for information leading to recovery. Notify H. E. Claywell, Champion Alta.

**Found**  
On Sunday, Jan. 20, on road to Carmanagay, a pair of spectacles. Owner call at Chronicle office.

Calgary Power Co.  
Here This Fall

Negotiations with the Calgary Power Co. have reached a stage where it is practically safe to assume their lines will be delivering juice here in the early fall. The rates quoted are very fair for the quality of service offered and the feeling in favor of granting the company a franchise is unanimous.

## Big Night Tues. March 22nd

On Tuesday night, March 22nd, Champion is to be favored with one of the best dance orchestras ever brought in here, namely Len Davis and his Arcadians. They will play, the special picture at the local theatre being, "Richard Dix in 'Paradise For Two'" and then their regular dance program after the show. Show starts at 8 o'clock.

That the first automobile in the world are being built in America was again proved by the outcome of the noted Tijuca Hill Climb, South American racing classic, held in Rio de Janeiro recently.

In this event Chandler, an American made car in the medium priced class, defeated a field of eighteen other cars including three Bugatti's, four Landis, one Peugeot, one Amicar, one Saldaña, one O.M., and seven American-made cars.

The Tijuca hill climb, known throughout Rio as the Course of Death, is 11 miles long, with an incline of 15 per cent. It rises to an altitude of 3,260 feet, and has many steep, winding grades and dangerous curves throughout the course, which is flanked on one side by the sea and on the other by precipitous mountains.

The remarkable time of the winning Chandler in this extremely hazardous event was 12 minutes 5 seconds—almost two full minutes ahead of the second car, a Bugatti. "This latest Chandler victory is the second in South America in a comparatively short time. Only a few months before Mr. Joan Bosco de Rezende, driver of the winning Chandler in this Tijuca Climb, won three events in the Sao Paulo Junior Brazilian Championship Races finishing first among all American cars which took place in the various events; first among all cars with a standard motor in the cross country races, in which 81 cars were entered; and first in the classification above 5,000 cubic centimeters.

These impressive victories, coupled with Chandler's championship performance in America and abroad in the past several years, point indisputably to the quality of material and the championship performance built into the car.

Among other important American records that Chandler holds are the hill-climbing championship made on Pikes Peak, the world's highest automobile climb of 17 minutes 48 2/5 seconds; the speed and endurance record of travelling 1,000 continuous miles in 80 minutes—average speed of 80.0 miles per hour; and the record for non-racing cars of speeding a measured mile in 31.1 seconds, at the rate of 115.38 miles per hour, made at Muro Dry Lake.

Abroad Chandler also has an enviable performance record. In India, at the Bombay-Poona reliability run, Chandler won the trophy cup, and was the only car to complete a perfect score of 200 points. At the annual reliability contest in Sydney, Australia, Chandler triumphed over 22 other cars in all-round performance, and compiled a grand total of 247.75 points.

These notable records are only a few among the many that stand to the credit of Chandler, yet they speak for themselves. When an American built car can consistently out-perform the highest priced cars of the world in every sort of competitive test, Americans don't need to take off their hats to anyone when it comes to building the automobiles.
